BOX 99, BROOKLIN, ONT.

Thurs., Oct. 22, 1959

---

## Public Library

Lack of space in this issue does not permit us to continue the list of new books recently arrived at our Library, but we hope to continue in our next issue.

By the way, has anybody heard whats happening at the Library Board Meetings these days? Are they not holding any meetings? Has the School board appointed a new member yet? Whom? And if not, why not? Wasn't there supposed to be a new building started soon? Can anybody fill us in on this? Seems we have been a little too busy minding our own personal business, lately.

---

## Spencer School

A Hallowe'en Party is being held at the school Friday, October 30th. Fun for young and old. All the community is invited to come and join in the fun. Adults 25c; children free of charge.

---

## Whitby Township Assessment Up

Mr. E. R. Heron, Assessor, presented the 1959 Assessment Rolls for acceptance by Council. Mr. Heron also provided copies of an assessment report showing an assessment increase of \$653,980.00 and population increase of 408 over last year's returns. This report was considered and the Assessment Rolls accepted by Resolution No. 3

Mr. Heron also reported that \$1,087.50 in Dog Licenses has been collected to date and that several licenses have not been obtained as yet. Mr. Heron was authorized to contact the Dog Control Officer and make a united effort to collect these fees.

## INDUSTRIAL DEVELOPMENT

Now is the time for our Township Council to form an Industrial Commission to advise them on the necessary steps to attract some Industrial Assessment to this Township.

Small manufacturing or servicing industries can often be induced to locate in suburban areas and their requirements are often very reasonable. A good supply of water and good access roads fill the bill. They are a great boon to any community in which they locate by providing work for our young people at one end of the age scale and then again for the older resident, possibly on a part time basis. Besides giving a more balanced tax structure. We readily endorse Mr. Mittler's point of view that this Township now acts as a Dormitory for often 'Laid-Off' Oshawa and Whitby Workers. If there were some Factories in the Township, this would help to stabilise the employment of some of our residents.

Very often these smaller Manufacturers are geared to the utilization of Part Time Help with no age or sex requirements. And in these days of ever increasing Living Costs many a retired Pensioner would appreciate the opportunity to augment his income. A quick look at a Township Map shows that large portions of Prime Industrial Land are located between Oshawa and Whitby to the East and Whitby and Ajax to the West. Valuable Industrial Sites may also be found very close to Brooklin and Myrtle served by excellent Highways, a Railway line and nearby Harbour facilities.

Our Council is at present dickering with a Zoning By-Law. We say hurry up you folks and get on with it. What do the prospective candidates say to our suggestion? Are you in favor of a move towards Industrial Development? Let us have your views and we will gladly publish them in the Bulletin.

## LACROSSE CHAMPIONS

Brooklin now Ontario Senior "B" Champions. Brooklin now All Ontario Intermediate "A" Champions. Winners of the Levac Trophy.

In a thrilling first half of a 2-game all goals count final, here in Brooklin last Saturday night, our boys established a 15-8 lead over Cornwall Warriors and even though beaten by that team on Sunday afternoon in Cornwall — the game finished 7-5 for the Warriors, the left over lead from their home game gave them enough of a head start to come out with the Top Ontario Lacrosse Honors for 1959.

Boys, we are really proud of you and add our congratulations to the many you deserve to receive. Lacrosse is a team game and so we refrain from singling out any particular player for special mention in this, our last report for the season.

The players and Organisers have asked us to convey their thanks to their many supporters who have been with them all the way. And to the many new fans we say: Get ready to join us for some exciting Ice Hockey in the Winter and soon it will once again be summer and time for some more LACROSSE.

#### **Hard Time Party**

The 1st Brooklin Scout Mothers Auxiliary are holding a Hard Time Party at the Township Hall Brooklin on Saturday October 24th at 8 p.m. We hope to have the support of both, members and non-members. So come along one and all, join the fun. Remember this is a Hard Time Affair—you come as you are: Dress informal.

The object of the Hard Time Party is to raise funds to help the activities of the 1st Brooklin Scouts and Cubs. We now have approximately 84 Scouts and Cubs in our troops. The purpose of the Scout Mothers Auxiliary is to lend assistance and supports in all phases of the work, when requested. By encouraging boys to be keenly interested we can help the Scouters, who give so liberally of their thoughts, time and effort to help build a solid foundation for our Boys.

The Auxiliary is also a means whereby the Scouters may become acquainted with the Mothers; and Mothers one with another. Membership is also open to any other Ladies interested in the work of scouting.

Meetings are held every third Thursday in the month. Announcement will be made in the Brooklin Bulletin before every meeting.

We extend a warm welcome to you to join us.

#### **Know Your Candidate**

The Better Business Bureau's have a motto which pertains to elections it is, "INVESTIGATE BEFORE YOU INVEST", this motto offers the best in advice.

The year you are investing in your elected representatives could be a costly investment, remember the Council you elect is spending your money.

NOMINATION DAY is Monday Nov. 30th. The place Township Hall time 7.00 p.m. come out and meet the aspirants for public office, remember KNOW YOUR CANDIDATE.

What surprises are in store for the unwary voter?

A smear campaign against some candidates?

A last minute campaign on a dark horse?

Beware of those offering streets paved with gold, remember its your gold. Some have been heard to say they will destroy those muddling farmers, now seated on the council, all we have to say on the subject is that age and experience counts to some degree and those crying the most about the present council are the ones not tempered by public service themselves.

KNOW YOUR CANDIDATE.

#### **Legal Beagle?**

A lawyer is a person whose services are used to save someone money. This may seem strange to an individual who has paid legal fees, but on reflection this statement is absolutely true.

All large companies have legal assistance in the operation of their daily business to ensure that, government regulations are fulfilled and also to take care of any minor incidents which arise from day to day.

In addition the majority of these companies have at least one lawyer on their board of directors. This enables any planning to be done with the assistance of a mind trained to find possible pitfalls which could cause considerable financial loss, and loss of good will.

A municipal council is such a body, but in smaller municipalities such as ours where is that legal mind? This is to the writers point of view, a rather weak position. A fully qualified lawyer acting for the council would be of inestimable value in to-days rapid industrial and housing development in the rural areas.

This Township we feel should have a lawyer on an annual retainer to assist when complex situations arise.

## Brooklin History

The first edifice erected for worship was built by the Episcopal Methodists in 1845. It was a white frame building and was also used by the Salvation Army during its official life in the village. It is believed this building was later moved to Baldwin St. and converted to a place of business.

In 1862 the Presbyterian church was built which was situated on the present site of Mr. Don Mitchells' home. The first minister of that noble body was Rev. Dr. J. M. King who was followed in due course of time by Rev. Oliver LaBelle, Rev. J. B. Edmonson and Rev. Dr. Carmichael. In 1867 the Wesleyan Methodists built the Church now known as Brooklin United.

The present Anglican Church followed a year or so later.

Brooklin like many another Ontario Village, passed through a period of industrial prosperity. The needs of neighbouring farmers with their families and helpers provided the requirements of considerable mercantile business. The tradesmen were kept busy making and repairing Farm Equipment. To those industries were added the mills and factories that were common to Village Life all through the country a century ago. Then came the period of business centralisation in larger Towns and Cities and the consequent shifting of population.

Whether as a cause or result, improved transportation facilities accompanied the change. Improved Highways, the automobile and rural mail delivery have all tended towards the same end. Reviewing the life of the Industries that belonged to Brooklin, it is shown that a decline set in with the opening of the Whitby-Port Perry and Lindsay Railroad.

One by one after that date the larger Industries dropped out without replacement. Fortunately, however, the Village maintained its dignity and modified itself to meet the changed conditions. From an industrial centre it has become a residential Village of attractive Homes.

At least three Drugstores are known to have functioned in the early history of Brooklin. Mark Robinson, who was killed in a runaway accident on the Kingston Road, was the first Druggist. Both John Daws and John Warren did quite a prosperous trade in the same business the former on the East side of Baldwin Street the latter at the site of the present

Kennedy's store.

The mention of drugs recalls the early physicians. Dr. Foote was a typical medical man, resourceful afraid of no physical obstacle. Visiting the settlers on horseback and on foot. Dr. Henry Warren soon joined his Father-in-law Dr. Foote. Dr. Frank Warren arrived in the Seventies and Dr. Starr a few years later. Drs. John and James Moore succeeded this Brooklin Practice. Dr. Amos Campbell also practiced for a number of years.

The first four homes, all Log Structures were occupied by John McKee, Amos Way, the Campbell Family and William Hepinstal. All these men were active in establishing industries that made the place a prosperous business centre.

Two Tanneries operated from a comparatively early date. The first was built about 1854 by Moses Bartlett who later sold out to John and Edward Cole. This property, which stood back of the Methodist Church was later taken over by W. J. Murray in 1876 and operated by him until 1890, when it was burned due to an electric storm. The second was built about 1858 by Joseph C. Huckins and George Mott and was situated on the West side of Baldwin Street.

The Village was well equipped with Taverns in the early days. Queen street being the main thoroughfare had two such houses, the Winchester House which served its day from the 40's onwards was located near the intersection of the present King Street. A competing Tavern built of Clay and Straw stood a few yards further south. A later Tavern did Business on the site of the present Community Hall.

As the Village grew westward and the present Highway became the chief thoroughfare a house was opened south of the old Post Office. The Globe Hotel occupied the Triangle Park now vacant of buildings and did an extensive trade during the period of greatest industrial activities. It was operated by Job Wilkinson, who was followed by James P. Powell in 1866, the year of the Fenian Raid.

The above short History of Brooklin has been compiled with the help of various available literature, such as old newspaper clippings etc. It is printed here in good faith and the accuracy of these sources of information had to be trusted. We would be very glad to print any corrections brought to our attention and once again request further contributions

to our historical column, which we have good reason to believe is very widely read. In particular would we now like to link the past with the present and if there are any relatives now living in the district whose forebears have been mentioned in this column we would appreciate hearing from them.

---

## Boy Scout Apple Day

The cubs, scouts, mother's auxiliary and leaders of the scout movement in Brooklin are deeply grateful for the support afforded them on Apple Day, Saturday, Oct. 17th by everyone of the district, including Kinsale, Ashburn, Myrtle Columbus and Raglan. We would also extend our thanks to the fathers who donated cars and the Mother's Auxiliary who helped the boys stave off the chilling effects of the weather by serving them cocoa and cookies from one of the tents set up in Triangle Park, which served as headquarters for the operation.

When the final tally had been taken, it was very gratifying to learn that \$156.00 had been raised.

To those unfamiliar with the dispersement of the collection, we would like to explain how the money is used. Each troop pays a portion to the Whitby District Scouting Association whose only income is from this source. They, in turn sponsor special courses for leaders, Bronze Arrowhead courses and camporees for the benefit of the troops in the area. The balance is used by the local cubs and scouts to purchase camping equipment and other operating costs.

Again, may we say thanks to all of you for having helped the boys have a wonderful Apple Day.

---

## Brooklin Community Club

The first regular meeting of the season was held at Brooklin House on October 8th. After an excellent Steak Dinner retiring President Don Mitchell handed the meeting over to President Fred Brown. It was decided after some discussion that the Brooklin Community Club would once again sponsor a Santa Claus Parade here in Brooklin. And, with an early start, it is hoped that last years standard, even though exceptionally high, will be surpassed. The Parade will be held on Saturday,

**Deer Season Announced**  
**Earlier For the Benefit**  
**Of Holiday Hunters**

Lands and Forests Minister J. W. Spooner has announced the deer season earlier this year than formerly. Residents and non-residents may hunt deer from Nov. 9 to Nov. 21 in certain areas of Southern Ontario.

These areas are:

The Territorial District of Parry Sound.

The Territorial District of Muskoka except the geographic townships of Medora and Wood.

The Territorial District of Nipissing lying south of the northerly boundary of the geographic township of West Ferris, Trout Lake and the Mattawa River.

The Provisional County of Haliburton.

The Counties of Lanark and Renfrew.

That part of the Township of North Crosby in the County of Leeds, lying north and east of the Mass Road from the west boundary of the County of Leeds through Westport to and along the north shore of Upper Rideau Lake.

The Counties of Hastings, Lennox and Addington and Peterborough lying north of the King's Highway known as No. 7.

Those parts of the County of Frontenac lying north of No. 7; and lying south of No. 7, east of No. 38 and north of the county road known as No. 8 and the connecting road from it to Godfrey.

The township of Somerville and those parts of the Townships of Laxton, Digby and Longford, and Dalton lying north of the Monk Road in the County of Victoria.

The Townships of Mara and Rama in the County of Ontario.

Look to this Day!

For it is Life, the very Life of Life.

In its brief course lie all the Verities and Realities of your Existence:

The Bliss of Growth,

The Glory of Action,

The Splendor of Beauty,

For Yesterday is but a Dream,

And To-morrow is only a Vision:

But To-day well-lived makes

Every Yesterday a Dream of

Happiness,

And every To-morrow a Vision

of Hope.

Look well therefore to this Day!

Such is the Salutation of the

Dawn!

Based on the Sanskrit, c. 1200 B.C.

## Brooklin Community Club

Continued . . .

**December 19th.** Get busy now with your costumes and floats.

As has been the custom in years past the Brooklin Community Club will hold a Gala New Years Dance at the Township Hall, Brooklin. Our secretary, Walter Mittler, has once again been entrusted with the organization of this special annual event. Tickets will be strictly limited this year, to avoid a repetition of last years overcrowding. So please phone your reservations in as soon as possible.

**BINGO:** The Brooklin Community Club will hold a Monster Turkey Bingo in the Township Hall, Brooklin, on Saturday, December 5th.

profits made from any function run by the Community Club are applied to community betterment, mainly by supporting the many sports activities of which Brooklin may be so justly proud and to lend a helping hand in case of disaster.

## INVEST IN YOUR COMMUNITY

During my early childhood in Austria my Grandmother was often heard to exclaim: "A' jede Wurst hat zwei Zipfel" literally translated this means, "Every Sausage has two ends or there are always two sides to every story, to every situation."

The recent tightening of the money situation has been a great deterrent to business generally with ever increasing hardships experienced by the smaller operations. On the other hand a very lucrative new field has been opened to the wise investor, Gilt Edged—None Speculative Investments may now be made showing an interest return of as much as 6%. An up to now unheard of high profit margin indeed. So for instance offers the Township of Whitby a Debenture Issue of \$45,000—to pay for the New Fire Hall and Truck at this interest rate. Whereas the advertisement is particularly addressed to members of the community, anybody may of course subscribe to this excellent issue. We feel that this offering is a wonderful idea and will be a rousing success, particularly as arrangements have

been made to sell single units as low as \$100 per unit with the investor having the option to select the term from 1—20 years. Perhaps it should be pointed out that Debenture Issues fall under the "Fixed Term" type of investment and the larger investor would be wise to purchase blocks with varying maturity dates. However these bearer units are readily transferable and have a fixed par value. You will be well advised to purchase the offered Debenture units before you buy Canada Savings Bonds. Examination will show that your gain is considerably higher on the former besides investing in your own community. Interest coupons will be clipped annually. This coupon clipping is a very healthy habit, you have an opportunity now to join the ranks of many prosperous clippers.

## Random Thoughts

BY M. W. MOSSER

A week til' Hallow'een, the night when mischevious spirits roam, playing pranks on us staid mortals; shadowy witches and luminous ghosts drift across the landscape, chasing black cats, with their ghastly cries; weird monsters dash from house to house crying, "Shell Out, Shell Out", or pay the consequences. Hallow'een; a scary, funny, happy night, a night for the kids.

These cool fall days with a hint of snow in the air makes me forget that this past summer was one of the hottest on record, remember those hot sticky days seemingly without end?

The Home and School Association is again supporting the Hallow'een Shell Out campaign to raise funds for U.N.I.C.E.F. When the children with tote boxes call at your house be generous. CHILDREN NEED YOUR HELP.

Are you a "Desperation Tuner Inner" (one who flicks from channel to channel in search of a program you dislike least?). This vision of desperate boredom is depressing. Have you listened to good "HI-FI" records or "F.M." radio as a more rewarding form of home entertainment?

## NOTICES

**Brooklin Duplicate Bridge Club**  
The Brooklin Duplicate Bridge Club met last Wed. Oct. 14th at the Township Hall, with 5½ tables present.

High score for the evening;

Mrs. Crossman and Mr. John Glover (Oshawa) 51 points. Mrs. Davis and Mr. Ron Atkinson 49½ points. Mrs. W. Medland and Mrs. Stewart 48 points.

The Duplicate Bridge Club meets every Wednesday 8.00 p.m. at the Township Hall.

You're welcome but please bring you're own partners; We don't wait we start at 8. For further information call President Mrs. Robert Heron OLiver 5-3168.

The United Links Couples Club met Saturday night Oct. 17th. The meeting took the form of a trip to the Dunlap Observatory at Richmond Hill.

Everyone found the trip interesting although the weather did not permit too many to gaze at the stars through the giant telescope. A delicious lunch was served on return to Brooklin at the Church Hall. Next meeting will be Wed. Nov. 11. All young couples welcome.

The, Soviet Composers' Alliance, believe music to be the road to International Harmony; doing their bit to help, they have invited Canadian and United States "HI-FI" and Recording Companies to demonstrate their products in a Moscow Audio Fair. "The Russians are music lovers" says one of the sponsors, "If they think of us as human beings who share the same artistic likings and satisfactions, they can no longer picture us as the souless and evil enemy with an atom bomb in hand".

Another step toward WORLD PEACE.

## COUNCIL BITS

(Taken From Minutes)

Mr. Arthur H. Creamer, Clerk/Treasurer, Township of Crowland asked for support of the following Resolution passed by the Council of the Township of Crowland. "THEREFORE be it resolved that this Council petition the Provincial Government to take over the complete cost of welfare, and for the Province to also take over complete administration of welfare, on a more equitable basis."

The present welfare system was discussed and it was agreed that the matter should be investigated further and the letter was tabled.

## VEALING TESTS

Each year in Canada about one million calves are vealed. At the O.A.C. a study of Holstein bull calves was made with groups of four fed on eight different standards.

Group 1 Was pail fed whole milk only.

Group 2. Was paid fed whole milk plus supplements.

Group 3 Was paid fed whole milk for three weeks then gradually changed to skim.

Group 4 Pail fed whole milk for three weeks then a gradual change to skim milk plus supplements.

Group 5 Fed milk replacer only.

Group 6 Fed milk replacer with supplements.

Group 7 Fed by nurse cow only.

Group 8 Fed by nurse cow plus supplements.

The calves fed on whole milk for three weeks then gradually changed to skim produced the greatest return over feed costs regardless of whole milk price.

Whole milk, pail fed calves and skim milk fed calves averaged better returns than nurse cow calves. There was almost no difference between calves fed supplements and those which were not.

## CHRISTMAS TREES

## COUNCIL BITS

The Road Committee reported on the Committee Meetings of October 1st and October 5th as follows: "That this Committee, after considering the alternatives proposed by our consultant Mr. Ross Raymond, recommends to Council that henceforth payment for all storm sewer installations be made under The Local Improvement Act." This report was adopted by Resolution No. 6.

Moved by G. H. McMahon, Seconded by S. R. Young that Council accept the recommendations of the Road Committee relevant to the charges for the proposed storm sewers for Heber Down Crescent and Montgomery Ave. and that necessary action be initiated under Section 8 of the Local Improvement Act. Carried.

Moved by G. H. McMahon, Seconded by Myrtle Lovelock that the Reeve, Clerk and Treasurer be appointed a Committee to sell Debentures for No. 1 Fire Area and they be authorized to spend funds for advertising or other purposes which they believe necessary for this purpose. Carried.

Dr. J. H. McKinney, M.O.H. reported some flooding of cellars, Septic tile beds and rear yards on the lots between Torian and

Montgomery Avenues. A private drain seems to be operating in part but the southerly portion is not functioning at all. Several of the property owners were present with Mr. J. Wallace acting as spokesman for the group. These owners were willing to re-construct the drain to get proper drainage and bring an additional outlet to the street line on the property line between Lots No. 44 and 45, provided the Township would provide for an outlet to carry this drainage under the road to the existing storm sewer. The Council adjourned later in the meeting to view the situation and it was agreed that these owners should be assisted in one of two methods. The first method would be to re-lay the tiles to give a flow to an existing catch basin on Montgomery Ave. at the north end of the drain. The Road Superintendent offered to assist by taking the necessary levels to determine whether this method would operate successfully or not. If this did not work the other method of carrying the water across Montgomery Ave. at Lots No. 44 and 45 was approved.

Mr Pitts, Torian Ave. reported that he had ordered and received an entrance culvert some months prior to the recent installation of culverts supplied by the Subdivi-

der. This culvert is not paid for as yet and Mr. Pitts requested that since these other culverts are being supplied without cost to the home owner, his culvert be included on the same basis. After some discussion it was agreed that the supplying of culverts on the recent basis was being done as a last resort to complete the installations where no standard culverts existed and it was suggested that any other installations should be settled between the owner and the builder.

Affleck and Greig, Solicitors of Uxbridge on behalf of Mr. Myron Vipond served notice of possible legal action for alleged authorization by this Township for hydro pole guide wire which extends into Mr. Vipond's property—part of Lot 24, Concession 6. It was decided that since no authorization was given by the Township the Solicitor be so advised and a copy of the letter forwarded to the H.E.P.C. of Oshawa.

# Church and School Week

Next week Oct. 24th to Oct. 31st. will be Church and School Week in Brooklin. Attend the Church of your choice.

## Burns Presbyterian Church, Ashburn

Sunday October 18 was Anniversary Sunday at Ashburn Presbyterian Church. Services were conducted at 11 a.m. and 7:30 p.m. Both services were well attended.

Rev. Gervis Black from Arden, Ontario was guest minister. Miss B. Mirbach from Toronto was guest soloist at the morning service. The choir from St. Andrew's Presbyterian Church in Pickering visited at the evening service and greatly enriched the worship with their renditions of; "Hark, Hark My Soul", "I am Alpha", and a selection from "Olivet to Calvary". The ladies of the church entertained the guests to tea following the evening service. A vote of thanks to the guests was proposed by Mr. Walter Kerr.

There will be no regular church service at Ashburn on October 25 owing to Anniversary Services being held in St. Johns Presbyterian Church, Port Perry.

There will, however, be Sunday School at 10:15 a.m. Rev. Peter Golinski from Haiti will be present at the Sunday School session. Mr. Golinski will be telling of his missionary work in Haiti and will use as aids, chalk, board and slides.

Regular worship service will continue on Sunday November 1 at 11.30 a.m. preceded by Sunday School at 10:15.

C. G. I. T. (Canadian Girls in Training) under the leadership of Mrs. Russ Batten continues to meet each Friday at 7:30 p.m. in the Sunday School room. Their October 30th meeting is to take the form of a Halloween party.

Explorers under the leadership of Mrs. Fred Daw continue to meet each Saturday at 1:30 p.m. in the Sunday School room.

C.O.C. (Children of the Church) under the leadership of Mrs. Raymond Taylor meets each Saturday at 1:30 p.m. in Mrs. Taylor's home.

The Women's Missionary Society meets on the first Wednesday of each month at 2:15 p.m.

The Ladies' Bible Class meets on the second Wednesday of each month at 8:15 p.m.

## Baptist Church

The Brooklin Baptist Church were pleased to receive nine babies into the Cradle Roll Department.

The following were received: Scott Russell McLellan, Andrew William Brough, Donna Ellen Conner, Linda Christine Bemis, James Gordon Boyd, Jocanne Margaret Boyd, Francis Alfred Hale, Geoffrey William Mosser, Martin Anthony Mosser.

The following Sunday we enjoyed the ministry of Missionaries Mr. and Mrs. Bruce Sinclair and their children of South India.

Mrs. Sinclair and their two daughters told of the customs and life of the Tamil speaking people.

Their particular village is 200 miles west of Madras City. Last year Mr. and Mrs. Sinclair were in charge of a boys home with 65 boys to care for. Over half of these boys are orphans, who had been brought from different villages about where they were begging for food.

Mr. Sinclair showed pictures of his work in India in the evening service. He mentioned the threat of Communism, to these people, and challenged us to prayer for their deliverance from this Godless doctrine.

### Bible Thought for Today

God is a God of Pardoning Love. He stands ready to pardon the vilest sinner. He is ever calling men and women who have sinned; "Let the wicked forsake his way, and the unrighteous man his thoughts and let him return unto the Lord, for he will return unto the Lord, for he will have mercy upon him, and to our God, for He will abundantly pardon." Isaiah 55:7. There are those who think they have sinned too deeply to ever find pardon, but it is not so. It would be hard to find one who had sinned more deeply than David. He had committed the greatest wrong one man can commit against another; and he had stained his hands with the blood of his victim, still he found pardon. The story of David gives hope for any man or woman in deep distress of their past sins. Is there salvation for everyone? In the light God's Word we can say, "Yes," David found mercy and we can through the one who died for the very sin we have committed—

Jesus Christ.

Coming October 25, Chalk Artist Peter Gilensky Missionary from Haiti. Mr. Gilensky along with his special talent of drawing pictures in chalk will show pictures of his work in Haiti. Come and join us to enjoy this very talented and inspiring young man.

Children's Meeting are being held every Friday night at the Township Hall, 7.00 p.m. to 8 p.m. All those under twelve years of age are welcome. Every Thursday Evening Young Peoples group are having get together to plan their outlings parties and special activities for the coming winter season. Won't you join with them and bring along your ideas to make this a real young tee time of fun, instruction in the word and all round good time with others your own age. Time: 7 p.m. (do your homework when you get home). Place: Mrs. Ross Morgan: Heber Down Crescent "Sub Division". Age limit 13 years and up.

Services:

Sunday School, 9.45 a.m.

Morning Service, 11.00 a.m.

Evening Service, 7.00 p.m.

Mid week prayer service Wednesday evening, 8 p.m. sharp. Location announced from pulpit.

Rev. C. R. Nelson, pastor  
Everyone welcome.

It is with a feeling of profoundest regret that we learn of the passing of Ross Griffin Young, Infant son of Councillor and Mrs. Stanley R. Young of Brooklin. We know that the expression of our very deepest sympathy will do but little to alleviate such a severe loss. So we ask you, dear Reader to join us in prayer that He who comforts where human comfort fails may be near to our friends.

## ODD FELLOWS Are INDEPENDENT

Since its inception, the Independent Order of Odd Fellows have had a reputation of looking after their members, their widows and families in time of sickness or want.

You will never find a member in good standing seeking charity as long as he lives up to the teachings received on being accepted as a member.

They seek to improve and elevate the character of man.

## BROOKLIN RATE PAYERS ASS.

The Brooklin Ratepayers Association did not hold its scheduled monthly meeting on Wednesday, October 14th. Six ratepayers is hardly enough for a meeting. Fortunately we were spared a measure of embarrassment by being able to contact Mr. Shloen before he left his home with his projector and films. He was to talk to us on rose growing.

It is very obvious that ratepayers only attend meetings when there are issues of personal interest at stake. Now that the remaining culverts have been installed in the Meadowcrest Subdivision without cost to the home owner and some work is progressing on the subdividers part of the storm sewer along the southerly part of Heber Down Crescent, interest in a common cause seems to have disappeared. True there are still a number of localised drainage problems to be corrected, the solution of which seems to be left entirely in the hands of those immediately concerned. It seems a paradox that the solution of some problems does not strengthen an organization such as this and spur it on to even greater achievement, but on the contrary weakens it to such an extent that it must be considered ineffectual, through the drop out of those people whose grievance has been solved.

The executive had hoped that the Ratepayers Association would continue to function as a means to further good neighbourliness among its members and, of course, to take up the cudgles as became necessary from time to time.

Our Friends on Heberdown Crescent and Montgomery Avenue must be forgiven if they feel that their fight for storm sewers or some other adequate form of street drainage, is left entirely in their hands, unsupported by the rest of those whose water drains onto these lower lying streets and very definitely aggravates the problem. The very copious watering of lawns during the summer months being one of the main contributory factors. The latest proposal from our Council, that Storm sewers be installed on a local improvement basis, which would mean that the adjoining property owners pay the full cost of such an installation, is completely unacceptable. If the cost is to be borne by a local improvement area, then the whole of Meadowcrest Subdivision should be made into a local improvement area. The original proposal that the cost should be shared near enough 50/50 between the Town-

ship and the adjoining homeowners would have been a reasonable enough solution. A proposal which would have found ready acceptance with the council at the time it was made. Since then the council has been very busy obtaining all manner of advice from one source or another until they were at last advised to put this matter on a Local Improvement Basis. This is what they had been wanting to hear all along. They promptly made the necessary resolution to proceed. Only the Ontario Municipal Board can now save the affected Rate Payers from this injustice. Certainly we are assured that, if we pay for our storm sewer here, we will never be asked again, to contribute towards any other storm sewer installation, elsewhere in the Township. But, as a regular attender at practically all council meetings your reporter can testify that no other drainage problem comparable to the one under discussion has ever been brought to the attention of the council. Furthermore in any new subdivision the Subdivider will be made fully responsible to solve all these problems before he is granted permission to proceed, and it is therefore unlikely that anybody will be asked to pay for Storm sewers on a local improvement basis. Lastly the present council may not be in office when this problem crops up elsewhere and no guarantees can be given that Taxes will not be increased to allow for such an installation elsewhere.

We have seen in the past year how impossible it is to lay blame upon a council no longer in office. Promises as to what may or may not happen in the future are somewhat futile. Is it becoming obvious that some of the Council are getting a little tired of having to make decisions with such far reaching consequences? Perhaps they are indicating that they do not really wish to remain on council any longer.

### The Way I See It

BY W. P. MITTLER

The time is rapidly approaching when you Mr. & Mrs. Voter will be called upon to once again exercise your democratic rights at polls in the local municipal elections. So that you may be able to come to a right conclusion the Brooklin Bulletin from the date of its first publication has brought you various reports and views on the activities of the present Council. As a regular attender at practically all meetings of that body I must say that I have always been

greatly impressed with the careful deliberation given to the problems confronting the Council. And would say to the incumbent members: You have done very well during your term of office and have successfully crossed that Tightrope without falling off. Partly by making popular decisions and partly by making none that might have incurred criticism. Until you recently decided to commence proceedings for the installation of Storm Sewers on Heberdown and Montgomery Avenue on a local improvement basis, which means the residents on these two streets will be called upon to pay the whole shot. This, after a great number of the concerned Ratepayers had suggested that they would be willing to pay one half of the cost. To put the whole onus on these Ratepayers now is bad news indeed, particularly when it is realized that much of the blame must be squarely laid upon the shoulders of now retired "Planners". The fact that we are still without a new Firetruck or Fire Hall cannot be blamed on you. Whether the fact that, this Township is still without a Zoning By-Law can be blamed on you or not, is entirely without my jurisdiction. All meetings and discussions have been held in secret—and quite rightly so—all that can be said is that, we are still without one and that the lack of it hinders progress.

It is of the utmost urgency that some plans be made now to attract some form of Industrial Assessment to the Area to alleviate the ever increasing Tax Burden, both on the Farmer and the Urban Resident. At present this Township functions as a Dormitory and Education Centre for the surrounding Industrial Centres. (Editors Note: The subject of Industrial Development is covered elsewhere in this issue). It will be one of the main tasks of the incoming council to explore all Avenues to this purpose. The incumbent members have surely realized that some progress is inevitable and whilst it has been my contention all along that all progress must be made without haste, yet is must nevertheless be made. We cannot stand still and must keep a constant eye on the future. True, we live to-day, but the decisions we make now effect our greatest heritage, our children and their children. So if we don't feel quite up to it, lets say so now and give some other people the opportunity to serve our community. Then we can sit back and judge whether they are making a better job of it or not.

## CAN YOU BLAME THE DELIVERY MAN?

Of recent date delivery men from various firms have inquired which road is which and where Mr. So and So lives on Meadowcrest sub-division.

Gee, these men have my sympathy, have you ever tried to find a house in a certain road that is not marked, or if you are a local and know the road, find there are two houses numbered the same in that road—one with the street number—the other the lot number, or more than likely there are no numbers, you go up or down the street looking for a number then count the houses and what do you find? You are at the wrong house as Mrs. So and So lives up the road, or maybe they have never heard of her, she must be new here!

One poor guy with a load of fill, spent all one morning looking for Mr. What's-his-name, he asked and asked until he eventually found his party—but imagine these men at Christmas time when those many parcels have to be handed out? Could you blame the delivery men if your children go without!

## Pre-Schooler Troubles?

Parents with pre-school child problems are now offered advice free by writing—Pre-School Parent Centre, 983 Bay St., Toronto. Just send in your problem and a trained child-study expert will discuss it with you by mail. No attempt will be made to tell you what to do, no one but yourself can decide what you can or will do. The aim is to give suggestions that you may do something about the problem yourself. You will be told what is normal behavior for a child of that age, how to solve difficulties in, sleeping, eating or toilet habits. The consultants giving this advice are older married

women who have raised their own children and therefore are well experienced, besides having formal training, at the Institute of Child Study, University of Toronto.

Anyone visiting Toronto is

urged to visit the Headquarters at 983 Bay St. where office, a library, an interview room and a demonstration room with books, toys and other playroom equipment for pre-schoolers is demonstrated.

You are invited to contribute to YOUR OWN Newspaper by sending us your letters. Let us have your news, views and opinions. All letters must be signed with full name and address.

The editors, in allowing its contributors to this page full freedom of expression wish to state that they in no way endorse, agree, condone or in any other way identify themselves with the opinions here expressed.

### Say: "You saw it in The Brooklin Bulletin"

It pays to advertise in the BROOKLIN BULLETIN. Call our Advertising Manager Walter Mittler, Brooklin OL. 5-3745. Serving Brooklin, Myrtle, Ashburn and District.

TO THE EDITOR

Dear Sir:

As a regular reader of your paper I have noticed a marked change in the policy of it lately. Somehow you seem to be getting a "Nice News Paper." Your publication is now devoid of insults, but has a tendency to be a little too dry. Surely you could find a happy medium. By the way, may I congratulate the writer of your Editorial: "Now Thank we all; Our God" in your last issue and at the same time remind you of the current United Appeal. If some of your readers feel that they cannot make a contribution when the Canvasser calls, please ask them to be kind to these volunteer workers and at least send them on their way with a word of encouragement.

N. Onsens

Editor's Note: Thank you for your kind remarks. We have had a number of comments on Mr. Mittler's Thanksgiving article. Hope you like the 'tone' of this issue better. But, bouquets or brickbats—we like to receive them all.

## RUMORS

Pay no attention to rumors,  
A rumor is almost always not the whole truth,  
If you don't know your statement is true say nothing,  
Most rumors hurt someone, in time this someone may be you,  
DON'T BE A RUMORMONGER.

The Brooklin Womens Institute are sponsoring classes in "Making New Lamp Shades From Old". Anyone wishing to take this interesting course please call one of the following to register.

Mrs. R. Heron OLiver 5-3168.

Mrs. E. Powell OLiver 5-3518.

## For Shame . . . .

A number of local builders have asked us to draw attention to a very marked increase in the incidents of vandalism and pilfering occurring recently on several building projects in the locality. Broken windows, mainly caused by non-supervised stone throwing youngsters are only a minor detail. The deplorable theft of large quantities of lumber and the perhaps not so mysterious disappearance of cement not by the bag but in two and three bags at a time is quite another matter.

## What Next ? ?

Don't forget to save your newspapers for collection on the second Saturday of each month, the next salvage day being November 14th.

In addition, the Scouts also have an outlet for empty egg cartons of the one dozen variety, therefore they may be put out with the paper and picked up by the boys at the same time.

Help yourself houseclean and at the same time aid the local troop.

## French In Grade Schools

BY M. W. MOSSER

Much newspaper space has been recently devoted to the advisability of teaching French in our public schools. Younger children learn a new language in much less time than older students, this does not mean that grammar should be taught but only the spoken word.

Dr. Wilder Penfield (world famous for his work in the Montreal Neurological Institute). States, "The human brain is man's master organ, it's control of speech distinguishes it from the brain of other mammals." "Therefore", he continues, "I would urge parents and educators to give some thought to this organ and how it learns languages, they may discover why the teaching of secondary languages in school, according to accepted curricular planning, is so much more laborious, so much less successful than the teaching of the primary tongue by mothers, or the teaching of secondary languages by servants or governesses in the home."

It has been suggested that a course held after regular school hours would be of great benefit to our grade seven and eight students, being able to converse in French is of considerable help in learning the grammar later, most of us spoke English long before we attended school, yet we expect to-days students to learn other languages in the short time devoted to this subject in high school. Dr. Penfield states "The time to begin schooling in secondary languages, is between the ages of four and ten." Imagine yourself how much easier it would be to study French grammar if you have a knowledge of the spoken word first.

The teaching of French outside school hours would also present a challenge to the more gifted child without advancing him ahead of his age group. Applying the thirst for knowledge to such a course, keeps these advanced students from becoming bored with their regular classroom fare. The giving of extra studies at their own level to these children, who without something to challenge their abilities are inclined to lose all interest in the classrooms and become lazy.

The main drawback to inaugurating such a program is the lack of French Teachers. This plan has been tried in some Ontario schools with a great deal of success. With French the official second language in Canada, I feel that such a course should be started in Brooklin.
